CPS300010HG

CPS Series – Power Washer

Cold Water: Gas Engine

The **CPS Series** is a rugged, gas powered cold water wash skid. The low rpm belt drive pump runs cooler to ensure long life and is ideal for use when drawing water from a bulk tank. The heavy duty powder coated, Pro-Tect-It frame prevents damage to components; allowing you to take it, worry free, through the roughest terrain. The industrial grade gasoline engine allows you the flexibility of providing cleaning power – whether it is out in the field cleaning equipment or cleaning use at any facility. Flexible mounting options, you choose your level of portability: mount on a trailer or tank skid, on wheels, or stationary.

PRESSURE	3000 psi
FLOW CAPACITY	9.5 gpm
POWER / ENGINE	688cc GX690 Honda twin cylinder Electric start
ENGINE FUEL / CAPACITY	Gasoline / 4 gal
POWER DRIVE	V-Belt Drive with EZ Align™ pump rail, stainless belt guard
CONTROL PANEL	Panel mounted, high-pressure water outlet and nozzle grommets
PUMP	General Pump
