

### Hot / Cold Water – Self Contained: Diesel Heated, Diesel Engine with 12v burner system

The **SCX Series** mobile wash skid is a diesel powered and diesel heated pressure washer designed for the extreme duty user. It has extra features and heavy-duty components to make it suitable for use in harsh and remote environments. The 12v heating system is dependable and efficient, quickly heating up to 250° for stubborn grease and grime. The extra-large frame allows for high capacity fuel tanks and easy access to all components. Panel-mounted indicator lights monitor your engine temperature and oil pressure conditions while double-wall steel engine mounting and a side-mounted muffler reduces vibration.
